Session 1: Thursday, April 4, 2019

At the first session, Badger Bonsai Society Co-President (KarlB) will be lecturing and showing images about bonsai and will bring a tree to demonstrate the whole process of creating a bonsai from common nursery stock. Participants need not bring anything to the first meeting - they certainly can, if they wish - but, we will save the last two class sessions to have participants actually creating a bonsai. We will go over what tools, plant species, pots, etc. participants should bring to the next two sessions.

Session 2: Thursday, April 18, 2019

Participants will bring supplies (tools, pots, plants, ...) to create their own bonsai ... *this will be discussed in session 1*
